U.S. Patent No. 6,746,425 is a continuation-in-part of U.S. Patent Application Serial No. 08/873,413 filed on June 12, 1997 (now abandoned), which claimed the benefit of U.S. Provisional Patent Application No. 60/019,931 filed on June 14, 1996. The above-referenced assignment documents were filed and recorded in the U.S. Patent and Trademark Office for U.S. Patent No. 6,746,425. U.S. Patent Application Serial Nos. 10/726,960 and 10/726/464 are continuation applications of U.S. Patent Application Serial No. 09/523,817 (now issued U.S. Patent 6,746,425). U.S. Patent Application Serial No. 10/954,886 is a continuation application of both U.S. Patent Application Serial Nos. 10/726,960 and 10/726/464. U.S. Patent Application Serial Nos. 11/551,326 and 11/551,329 are both divisional applications of U.S. Patent Application Serial No. 10/726,960. *The Manual of Patent Examining Procedure (MPEP) § 306 provides that, for a divisional or continuation application, a prior assignment recorded against the original application (in this case, U.S. Patent No. 6,746,425) is effective to the divisional and/or continuation applications.*

In my capacity as assistant corporate secretary of C. R. Bard, Inc., I am empowered to act regarding the above-identified patent and patent applications, and, I hereby revoke all previous powers of attorney given in the above-identified patent and patent applications. *I hereby appoint the Practitioners associated with the following Customer Number 79990 as our attorneys to prosecute the above-identified patent and patent applications, and to transact all business in the United States Patent and Trademark Office connected therewith. Further, please recognize or change the correspondence address for the above-identified patent and patent applications to the address associated with the above-mentioned Customer Number (79990).*

Respectfully submitted,
